Practice Paper

1 hour 15 minutes

No additional materials are needed.

- Answer **all** questions.
- Use a black or dark blue pen. You may use an HB pencil for any diagrams or graphs.
- Write your name, centre number and candidate number in the boxes at the top of the page.
- Write your answer to each question in the space provided.
- Do **not** use an erasable pen or correction fluid.
- Do **not** write on any bar codes.
- You may use a calculator.
- You should show all your working and use appropriate units.
- Take the weight of 1.0 kg to be 10 N (acceleration of free fall = 10 m/s^2).

- The total mark for this paper is 10.
- The number of marks for each question or part question is shown in brackets [].

1 A student has a metal object.

(a) (i) The student measures the mass of the object.

State the name of the equipment used to measure the mass.

..... [1]

(ii) The mass of the metal object is 1260 g. The volume of the metal is 150 cm^3 .

Calculate the density of the metal. Include the unit.

density = [4]

(iii) The mass of the metal object is given in grams. State the mass in kg.

mass = kg [1]

(b) A vase is placed on a table. Forces X and Y act on the vase, as shown in Fig. 1.1.

Fig. 1.1

The mass of the vase is 0.25 kg. The vase is not moving.

Calculate the value of force X and the value of force Y.

X

Y
